

7 DISTRIBUTION OF FINAL ENVIRONMENTAL ASSESSMENT

Due to the closure of public agency offices and traditional public venues for review of National Environmental Policy Act (NEPA) documents as a result of the COVID-19 pandemic, the Federal Highway Administration (FHWA) and the District Department of Transportation (DDOT) have made available the Finding of No Significant Impact (FONSI) and Final Environmental Assessment, including all appendices and supporting technical reports, on the project website (<http://www.broadbranchrdea.com/index.html>). Letters and emails (where email addresses were available) were sent to the following agencies, organizations, and interested parties to notify them of the availability of the document for their review. Additionally, announcement of the availability of the final document were emailed to all individuals and special interest groups who requested to be on the project mailing list.
